## CAREER OBJECTIVE

A dedicated computer science engineering graduate with a strong foundation in development, including expertise in web development with ReactJS and other technologies. Eager to kick-start my career in a software development role where I can apply my knowledge and contribute to innovative projects while continuously growing and learning in a professional environment.

## EDUCATION

### (BE) Computer Science Engineering

GPA: 7.7

#### 12<sup>th</sup> Science

Percentage: 70 %

#### 10<sup>th</sup> SSLC

Percentage: 70 %

Ghousia Collage of Engineering, [VTU]

2020-2024

MMU Pre University, Karnataka, India

2020

MMU Boys School, Karnataka, India

2018

## EXPERIENCE

### ➤ Varcons Technologies Pvt, Ltd (Internship)

Aug 2023 - Oct 2023

- I designed a captivating Travel Blog Template in Figma, developed it with React-Vite, and integrated Strapi as the backend CMS. To ensure optimal performance, I hosted the backend on render.com and the Frontend on netlify.com.
- Spearheaded the integration of React.js and Strapi as a Backend CMS, enabling efficient content management and reducing development time by 40%, resulting in faster product and improved customer satisfaction.
- Proven ability to work collaboratively with a team of 4 members using Google Chat for effective team discussions.

**Skills used:** HTML, CSS, Figma, Tailwind CSS React, Strapi CMS and Git, etc.

## PROJECTS

### ➤ Crypto-Details Website

Personal Project [GitHub REPO](#) [Live](#)

- I crafted a robust web application using React.js, Chakra-UI, Axios, and Chart.js, showcasing my proficiency in creating dynamic and user-friendly digital solutions.
- I created dedicated Exchanges, Coins, and Coin Detail pages, providing detailed information for each coin.

**Skills Learnt:** React.Js, Tailwind CSS, State and Routing Management, REST API Calling, Chart.js etc.

### ➤ E-Commerce Context-API

Personal Project [GitHub REPO](#) [Live](#)

- I Proficiently implemented the E-commerce web application using React.js, Tailwind CSS, Axios, and Context API.
- I demonstrated proficiency in React.js by effectively retrieving and utilizing data from a custom JSON object.

**Skills Learnt:** React Props and hooks, Context API etc.

### ➤ Travel Blog

College Project [GitHub REPO](#)

- Built a Travel Blog web application with an upgraded content management system using a headless CMS.
- I Plot a user-friendly Interface for both users and administrators to ensure a better experience.

**Skills Learnt:** React-Vite, Strapi-CMS, render etc.

For more Projects visit my GitHub profile [Shahid0009](#)

## ACHIEVEMENTS

- Achieved star badges on [HackerRank](#) for Programming, also earned certification for SQL.
- Contributed to an IEEE research paper on Fire Detection and Reporting, utilizing algorithms and Python

## SKILLS SUMMARY

**Programming languages:** C, C++, Python, JavaScript, SQL

**Tools & IDE's:** VS Code, Git, GitHub, MySQL

**Other Stacks:** OOPs, DBMS, Data Structure

**Web Technologies:** HTML, CSS, React.js, Redux Tailwind CSS

**Backend/Others:** Express.js, Nodejs, Postman etc.

**Soft Skills:** Leadership, Team Management, Responsibility

## CERTIFICATES & COURSES

➤ Introduction to MongoDB from LinkedIn Learning.

➤ Frontend and Web development from freecodecamp.orgs.
